

**The objectives of MFG Seafarers Fund are:**

- a. To support direct and indirect victims of:
1. Natural disasters such as tornados, hurricanes, typhoons, cyclones and other tropical storms, tsunamis, earthquakes, volcanic eruptions and suchlike, and:
  2. Environmental disasters, including the consequences of the intentional or unintentional release of a large amount of contaminating (chemical) substances in the environment through water, soil or air, and:
  3. Shipping disasters in the broadest sense of the word, including an incident that happened to a ship as a result of which significant damage was caused to said ship or items on board of it, or injury was sustained by one or several of those on board, or damage was caused to another ship or the items on board of it, or injury was sustained by one or several of those on board; both personally and by financing or co-financing repairs of damage to buildings and other types of constructions and/or infrastructures (in the event of natural and environmental disasters) and community projects in areas where such natural, environmental or shipping disasters have occurred or where the impact of such disasters is felt, possibly by giving support in any way whatsoever to legal persons and other organisations with an object that corresponds entirely or partly with that of the foundation, however, where natural and environmental disasters are concerned, exclusively in so far as they directly or indirectly affect the maritime sector or individuals working in the maritime sector;
- b. To perform all other actions which relate or could contribute to the above in the broadest sense.

**The MFG Seafarers foundations is a Non-profit organisation**

We are currently working on our policy plan.
